Resolution on guidelines for remuneration to senior executives (item 13)

The Board proposes that the AGM resolves on guidelines for remuneration to senior executives in accordance with the following.

Scope and applicability of the guidelines

These guidelines comprise the persons who are part of Nexam Chemical's group management. The group management currently comprise the CEO, CFO, CMO, CTO, Supply Chain Manager, Group Regulatory and EHSQ Manager and Managing Director Hungary. The guidelines also encompass any remuneration to members of the board of directors, in addition to board remuneration.

These guidelines are applicable to remuneration agreed, and amendments to remuneration already agreed, after adoption of the guidelines by the annual general meeting 2020. These guidelines do not apply to any remuneration resolved by the general meeting, such as e.g. board remuneration and share-based incentive programs.

The guidelines' promotion of the company's business strategy, long-term interests and sustainability

Nexam Chemical is a company specialized in the development of technology and products that make it possible to significantly improve the production process and properties of most types of polymers in a cost-effective manner and with retained production technology. In brief, Nexam Chemical's business strategy is to develop methods to improve the properties in polymers like strength, toughness, temperature and chemical resistance as well as service life. The improved properties enables replacements of metals and other heavier or more expensive materials with polymers in a number of applications. In applications where polymers are already used, the manufacturing process is improved, the material use is reduced and more environmental friendly alternatives are enabled. For more information about Nexam Chemical's business strategy, see Nexam Chemical's latest annual report.

A successful implementation of Nexam Chemical's business strategy and safeguarding of Nexam Chemical's long-term interests, including its sustainability, require that the company is able to recruit and retain highly competent senior executives with a capacity to achieve set goals. In order to achieve this, Nexam Chemical must offer a competitive total remuneration on market terms, which these guidelines enable.

A long-term share-related incentive program has been implemented in Nexam Chemical. For further information about this share-related incentive program, see Nexam Chemical's latest annual report. The share-related incentive program has been approved by the general meeting and is therefore not covered by these guidelines.

Types of remuneration, etc.

Nexam Chemical's principle is that remuneration shall be payable on market terms and be competitive to enable senior executives to be recruited and retained. The remuneration shall consist of the following components: fixed salary, variable cash remuneration, pension benefits and other benefits. Additionally, the general meeting may – irrespective of these guidelines – resolve on, e.g. share and share price-related remuneration.

For the individual senior executive, the level of remuneration shall be based on factors such as work duties, competence, experience, position and performance. The remuneration shall not be discriminating on grounds of gender, ethnic background, national origin, age, disability or other irrelevant factors

For employments governed by rules other than Swedish, pension benefits and other benefits may be duly adjusted for compliance with mandatory rules or established local practice, taking into account, to the extent possible, the overall purpose of these guidelines.

Fixed salary

The CEO and other senior executives shall be offered a fixed annual cash salary which shall be in line with market practice and based on the individual's responsibilities and behavior. The fixed cash salary shall be determined per calendar year with salary revision on 1 January each year.

Variable cash remuneration

In addition to fixed salary, the CEO and other senior executives may, according to separate agreements, receive variable cash remuneration. Variable cash remuneration covered by these guidelines is intended to promote Nexam Chemical's business strategy and long-term interests, including its sustainability.

The satisfaction of criteria for awarding variable cash remuneration shall be measured over a period of one year. Variable cash remuneration may, for the CEO, amount to a maximum of 70 percent of the fixed annual salary, and for other senior executives, a maximum of 50 percent of the fixed annual salary. Variable cash remuneration shall not qualify for pension benefits, save as required by mandatory collective bargaining agreements.

The variable cash remuneration shall be linked to one or several predetermined and measurable criteria, which can be financial, such as targets related to budgeted turnover and EBITDA, or non-financial, such as successful completion of internal projects in relation to targeted time plans and budgets. By linking the goals in a clear and measurable way to the remuneration of the senior executives to the company's financial and operational development, they contribute to the implementation of Nexam Chemical's business strategy, long-term interests and sustainability.

To which extent the criteria for awarding variable cash remuneration has been satisfied shall be evaluated and determined when the measurement period has ended. The board of directors of Nexam Chemical,

or Remuneration Committee if established by Nexam Chemical's board of directors to fulfil these duties, is responsible for the evaluation. For financial objectives, the evaluation shall be based on the latest financial information made public by the company.

The board of directors shall have the possibility to, in whole or in part, reclaim variable cash remuneration paid on incorrect grounds.

Pension benefits

Pension benefits, including health insurance, shall be defined contribution, insofar as the senior executive is not covered by defined benefit pension under mandatory collective bargaining agreements. Premiums for defined contribution pensions, including health insurance, may, for the CEO, amount to a maximum of 30 percent of the fixed annual salary, and for other senior executives, a maximum of 14 percent of the fixed annual salary.

Other benefits

Other benefits may include life insurance, medical insurance and a company car. Premiums and other costs relating to such benefits may amount to a total of not more than 6 percent of the fixed annual salary.

Termination of employment and severance payment

Senior executives shall be employed until further notice or for a specified period of time. Upon termination of an employment by Nexam Chemical, the notice period may not exceed 6 months. Severance pay, in addition to fixed salary and other remuneration during the notice period, may not exceed an amount corresponding to the fixed annual salary for 6 months. Upon termination by the senior executive, the notice period may not exceed 6 months, without any right to severance pay.

In addition to fixed salary during the period of notice and severance pay, additional remuneration may be paid for non-compete undertakings. Such remuneration shall compensate for loss of income and shall only be paid insofar as the previously employed senior executive is not entitled to severance pay for the period for which the non-compete undertaking applies. The remuneration shall be based on the fixed annual salary at the time of termination of employment and amount to not more than 60 percent of the fixed annual salary at the time of termination of employment, save as otherwise provided by mandatory collective bargaining agreements, and shall be paid during the time as the non-compete undertaking applies, however not for more than 24 months following termination of employment.

Salary and employment conditions for employees

In the preparation of the board of directors' proposal for these remuneration guidelines, salary and employment conditions for employees of Nexam Chemical have been taken into consideration by including information on the employees' total income, the components of the remuneration and increase and growth rate over time, in the board of directors' basis of decision when evaluating whether the guidelines and the limitations set out herein are reasonable.

Consultancy fees to the members of the board of directors

To the extent a member of the board of directors renders services for the company, in addition to his or her assignment as a member of the board of directors, an additional consultancy fee on market terms may be paid to the member of the board of directors, or to a company controlled by such member of the board of directors, provided that such services contribute to the implementation of Nexam Chemical's business strategy and the safeguarding of Nexam Chemical's long-term interests, including its sustainability.

Preparation and decision-making progress

The board of directors of Nexam Chemical, or Remuneration Committee if established by Nexam Chemical's board of directors to fulfil these duties, is responsible for i.a. preparing the resolution to propose guidelines for remuneration to senior executives. The board of directors shall prepare a proposal for new guidelines at least every fourth year and submit it to the general meeting. The guidelines shall be in force until new guidelines have been adopted by the general meeting. The board of directors of Nexam Chemical, or Remuneration Committee if established by Nexam Chemical's board of directors to fulfil these duties, shall also monitor and evaluate programs for variable remuneration for the senior executives as well as the current remuneration structures and compensation levels in the company. The CEO and other members of the senior management do not participate in the board of directors' processing of and resolutions regarding remuneration-related matters insofar as they are affected by such matters.

Deviation from these guidelines

The board of directors may temporarily resolve to deviate from these guidelines, in whole or in part, if in a specific case there is special cause for the deviation and a deviation is necessary to serve the company's long-term interests, including its sustainability, or to ensure the company's financial viability. As set out above, any Remuneration Committee's tasks include preparing the board of directors' resolutions in remuneration-related matters, which include any resolutions to deviate from these guidelines.
